October 24, 2008

Honorable Board of Directors  
Otay Water District

I am pleased to present the Otay Water District's (the "District") Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2008.

This report was prepared by the District's Finance Department following guidelines set forth by the Government Accounting Standards Board (GASB) and generally accepted accounting principles (GAAP). Responsibility for both the accuracy of the data presented, and the completeness and fairness of the presentation, including all disclosures, rests with District management. We believe the data, as presented, is accurate in all material respects and that it is presented in a manner that provides a fair representation of the financial position and results of operation of the District. Included are all disclosures we believe necessary to enhance your understanding of the financial condition of the District. GAAP requires that management

provide a narrative introduction, overview and analysis, to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A), which should be read in conjunction with this report. The District's MD&A can be found immediately following the Independent Auditors' Report.

The District's financial statements have been audited by Teaman, Ramirez and Smith Inc., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2008, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was reasonable basis for rendering an unqualified opinion that the District's financial statements for the fiscal year ended June 30, 2008, are fairly presented in conformity with GAAP. The Independent Auditors' Report is presented as the first component of the financial section of this report.

## REPORTING ENTITY

The District is a publicly-owned water and sewer agency, authorized on January 27, 1956 as a California special district by the State Legislature, with an entitlement to import water under the provisions of the Municipal Water District Act of 1911. Its ordinances, policies, taxes, and rates for service are set by five Directors, elected by voters in their respective divisions, to serve staggered four-year terms on its Governing Board. The District is a “revenue neutral” public agency, meaning that each end-user pays only their fair share of the District’s costs of water acquisitions and the construction, operation, and maintenance of the public facilities.

The General Manager reports directly to the Board of Directors, and through two Assistant General Managers and the District management, oversees day-to-day operations. One Assistant General Manager oversees the departments of Administrative Services, Finance, Information Technology and Strategic Planning, while the other oversees the Water Operations and Engineering departments. These and other lines of reporting are shown on the organization chart on page 9.

Over the last 52 years, the District has grown from a handful of customers and two employees to become an organization operating a network with more than 903 miles of pipelines, 43 operational reservoirs, a sewer treatment plant, and one of the largest recycled water distribution networks in San Diego County. The character of the service area has also changed from

predominantly dry-land farming and cattle ranching, to businesses, high-tech industries, and large master-planned communities.

Today the District provides water service to nearly 47,340 potable and 640 recycled customers within approximately 125 square miles of southeastern San Diego County. In the past, all of the potable water delivered by the District was purchased from the San Diego County Water Authority (CWA) who in turn purchases water from the region’s water importer, the Metropolitan Water District of Southern California (MWD). Last year the District began purchasing raw water from CWA and having that water treated by the Helix Water District. This action brought regional water treatment closer to our customers and reduced dependence on water treatment located outside of San Diego proper.

The District also owns and operates a wastewater collection and recycling system to provide public sewer service to approximately 4,630 homes and businesses, equivalent to 6,640 Assigned Service Units, within portions of the communities of La Mesa, Rancho San Diego, El Cajon, Jamul, and Spring Valley. Recycled water from the Ralph W. Chapman Water Recycling Facility (RWCWRF) is capable of reclaiming wastewater at a rate of 1.3 million gallons per day. The District also purchases up to 6 million gallons per day of recycled water from the City of San Diego’s South Bay Reclamation Plant. Recycled water from these two sources is used to

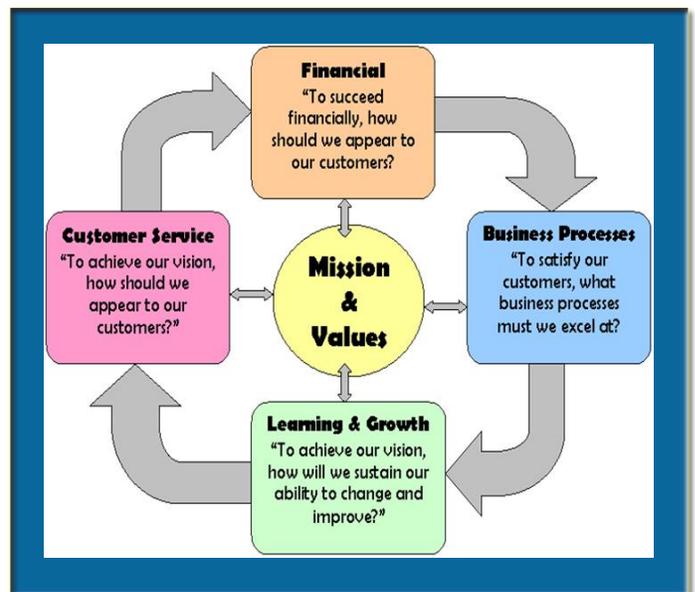

irrigate golf courses, schools, public parks, roadway landscapes, and various other approved uses in eastern Chula Vista.

## MISSION, CURRENT ECONOMIC CONDITIONS, AND OUTLOOK

The mission of the District is to provide customers with the best quality water, wastewater, and recycled water service in a professional, effective, and efficient manner. To do so, this year and in coming years, we will be faced with several key challenges. These challenges include: the slowdown in the local and national economy; instability in the financial markets; widespread home foreclosures; the likelihood of continued drought in the Southwest; and possible water shortages due in part to the reduction in water deliveries from the Sacramento – San Joaquin Bay Delta.

Given these uncertain times, the District must find the best solutions that balance the expectations placed on it by our customers and key community and financial stakeholders with the significant challenges we face. Meeting these challenges requires dedication and a commitment to continuous improvement and the innovative use of technologies and resources.

While overall growth in San Diego County has slowed over the last two years, population within the District’s service area continues to increase albeit at a much reduced rate. As of July 2008, it is estimated that the District served 191,500 residents. The San Diego Association of Governments (SANDAG), the regional planning agency, has estimated the District’s growth will continue for a decade or more. The District projects an ultimate customer population of 277,000 residents.

## BUDGET SUMMARY

The District’s Fiscal Year 2009 budget is \$98 million, with operating expenditures of \$67.1 million and capital expenditures of \$30.9 million. The District’s goal is to provide the most effective and efficient service possible while maintaining affordability of the water supply for the community.

The District’s operating expenditures are derived from its three major sectors: potable water, recycled water, and sewer, totaling \$67,062,700 for Fiscal Year 2009. Revenues from potable and recycled water for Fiscal Year 2009 are projected to be \$55,573,900, about \$4.8 million (9.5%) greater than Fiscal Year 2008. Water sales volumes are expected to decrease as a result of the slowing economy and expanded efforts to promote water conservation, while the cost of

water increases due to supply limitations. Sewer revenues are projected to be \$2,145,300, about \$270,000 less than Fiscal Year 2008, due to a change in sewer billing methodology and lower water consumption. The remaining non-operating revenues of \$9,343,500 consist of investment income, taxes and assessments, availability charges, and miscellaneous revenues.

Significant aspects of the Operating Budget are:

- A balanced budget meeting the goals of the Strategic Plan.
- An updated a six-year Rate Model to ensure sound financial planning and reserve levels.
- Unprecedented water supply rate increases of 13.2% from CWA because of the high cost of supply programs, in addition to higher energy and operating costs.
- Planned rate increases in potable and recycled water and sewer. This included pass-through rate increases from CWA, and County of San Diego who raised costs to water and sewer customers.
- Expanded residential, landscape, and commercial water conservation programs.
- In response to the economic slowdown, the District has reduced staffing levels from 173 full time equivalents to 169, and cut operating expenditures by \$885,800 due to program deferrals and other discretionary spending cuts.
- Of San Diego County's 23 water agencies, Otay's water rate is the ninth-lowest and below the county-wide average.

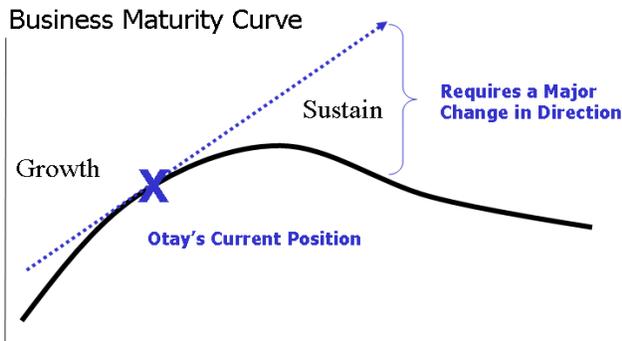

The Capital Budget consists of 66 projects and a budget of \$30,939,000. The budget emphasizes long-term planning for on-going programs while functioning within fiscal constraints and population growth. This year's CIP budget was reduced by \$7.5 million, compared to last year's projection, in response to the housing slowdown.

## STRATEGIC PLAN

The primary way to achieve our objectives is to improve all aspects of our core business processes. The main tool we will utilize in this regard is the Strategic Business Plan, which was updated this year and adopted by your Board for the 2009 through 2011 timeframe.

Efficiency improvements have become the new competitive advantage for utilities. As a result, the theme of the plan is to capitalize on the infrastructure investments we have already made in the last few years. We will use the slowdown in the regional economy to realign our energies and optimize how we manage and maintain the nearly half billion dollars of "in-ground" assets, utilizing the technology we have recently put in place.

The Strategic Business Plan also carries forth the District's transformation from a growth-centric to a maintenance-based organization. Where capital and developer fees supported growth, the District was very successful in managing long-term maintenance and replacement of our infrastructure.

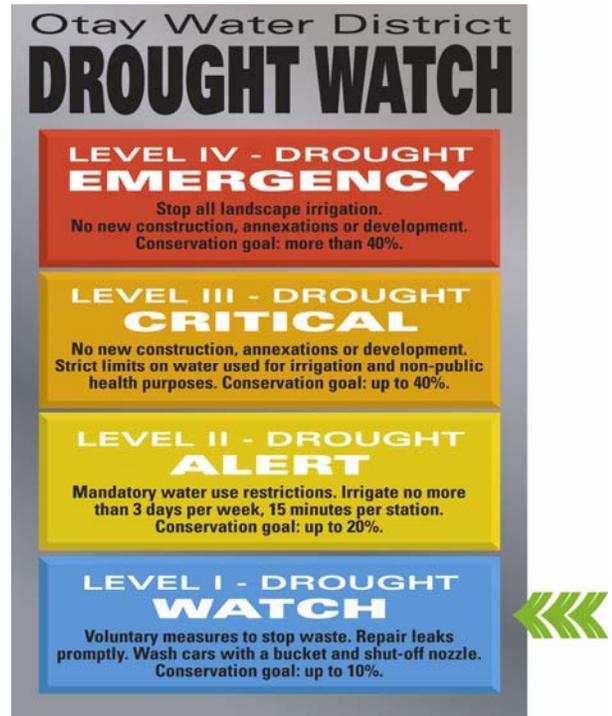

This necessary change is illustrated by the business maturity curve. During high growth, we focus on achieving the macro targets of building and installing new infrastructure. In the future, the resources required to support slower growth are reduced but the effort to maintain and improve assets increases. Income, however, will be derived more from rates and less from fees. Consequently, increased costs

place pressure more directly on rates. Therefore, to meet our customer and financial goals, the District will emphasize internal efficiency and development of technology assisted best practices. In effect, we will use our investments in technology to do more with the same or fewer resources.

### The Future

The coming years will be challenging times for everyone in the water industry. Following Governor Schwarzenegger's declaration of a statewide drought in California in June, the District declared a Level 1 drought watch. By doing so, we have begun calling on all customers to achieve up to a 10 percent reduction in their water use through voluntary measures. By summer of next year we estimate we could be in Level 2 drought alert, or perhaps even a drought emergency where voluntary conservation gives way to mandatory measures and all customers are required to cut water use by 30 to 40 percent.

As you would expect, this will impact the finances of the District and staff throughout the District are working diligently to prepare for the consequences of an extended drought, should it come to pass. With that in mind, our strength as an organization is vastly enhanced by the practices and policies put in place by your Board to ensure the strength and stability of the District as we move forward into uncertain times. These actions will assure our success as an organization and the well-being of the customers we serve.

### ACCOUNTING SYSTEM

The Finance Department is responsible for providing financial services to the District, including financial accounting, reporting, payroll, accounts payable, investment of funds, billing and collection of water and wastewater charges, taxes, and other revenues. The District's books and records are maintained on an enterprise basis, matching revenues against the costs of providing

services. Revenues and expenses are recorded on the accrual basis in the period in which revenue is earned and expenses are incurred.

### INTERNAL CONTROLS

Otay Water District operates within a system of internal controls established and continually reviewed by management. This provides reasonable assurance that assets are adequately safeguarded and transactions are recorded correctly according to District policies and procedures. When establishing or reviewing controls, management must consider the cost of the control and the value of the benefit derived from its utilization. Management normally maintains and implements all sensitive controls and those controls whose value adequately exceeds their cost.

Management believes the District's internal controls, procedures, and policies adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions. In addition, the District maintains controls to provide for compliance with all finance related legal and contractual provisions. Management believes the activities reported within the presented Comprehensive Annual Financial Report (CAFR) comply with these finance related legal and contractual provisions, including bond covenants and fiduciary responsibilities.

### BUDGETING CONTROLS

The District views the budget as an essential tool for proper financial management. The budget is developed with input from the various departments of the organization and is adopted prior to the start of each fiscal year. It is designed and presented for the general needs of the District, its staff, and customers. It is a comprehensive and balanced financial plan that features District services, resources and their allocation, financial policies, and other useful information to allow the users to gain a general understanding of the District's financial status and future. Monthly comparison reports of budget to actual are prepared and distributed along with variance explanations to all department heads, with top level information provided to the Board at the monthly Board meetings.

### CASH MANAGEMENT

During the year, available funds are invested in eligible securities, as required by law, and in accordance with the District's own investment policy adopted by the Board of Directors. The investment objectives of the District, in order of priority, are: 1) to preserve the capital of the portfolio; 2) to maintain adequate liquidity to meet cash flow requirements; and 3) to obtain a reasonable rate of return without compromising the first two objectives.

### RISK MANAGEMENT

In 2003, the District became a member of the Special District Risk Management Authority (SDRMA), a pool program which provides the District's coverage for property, auto, liability, health benefits, and workers' compensation claims. During Fiscal Year 2007-2008, the District continued its proactive liability risk management role through careful monitoring of losses and designing and implementing programs to minimize risks and losses. In addition, the District's

Safety Committee analyzes workers' compensation issues by monitoring work conditions, and organizing and implementing safety training programs to reduce employee exposure to hazards.

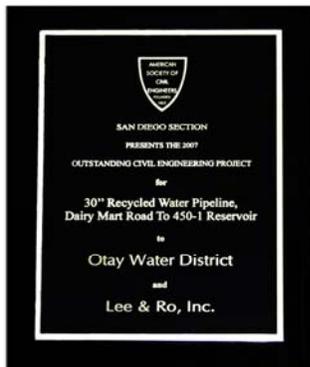

## PENSION PLANS

In addition to participating in Social Security, the District provides a defined benefit pension plan for its employees through the California Public Employees' Retirement System (CalPERS). The District contributes a specified percentage of covered employees' payroll, which is invested by CalPERS. Upon retirement, District employees are entitled to a specified retirement benefit. The plan is more fully described in Note 8 to the Financial Statements.

## OTHER POST-EMPLOYMENT BENEFITS (OPEB)

The District provides other post-employment benefits (OPEB) as a part of the total compensation offered to attract and retain the services of qualified employees. OPEB includes healthcare and other forms of benefits (for example life insurance), in addition to the benefits provided from specific pension plans. Financial reporting of the actuarial accrued liabilities corresponding to all promised benefits associated with past services of District employees is not required until Fiscal Year 2008-2009. However, setting the District apart from most state and local government employers, during Fiscal Year 2007-2008 the District elected to set up an OPEB trust fund with CalPERS and pre-funded \$5.6 million of its net OPEB obligations, approximately half of the actuarial accrued liability, as of the latest actuarial projection, dated June 30, 2007. The District has also designated an additional \$5.8 million to allow for significant funding of the remaining obligations. For additional information see Note 9 to the Financial Statements.

## AWARDS AND ACKNOWLEDGMENTS

To recognize the District's Supply Link Project, connecting our recycled water system to the City of San Diego's South Bay Water Reclamation Plant, the American Society of Civil Engineers (ASCE) presented the District the *2007 Outstanding Civil Engineering Project* for the 30" Recycled Water Pipeline, Dairy Mart Road to the 450-1 Reservoir. Additionally, for this same project, the Construction Management Association of America (CMAA) presented Otay Water District the *2008 Project Achievement Award* for the Recycled Water Pipeline to recognize outstanding achievement in the practice of construction management.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a *Certificate of Achievement for Excellence in Financial Reporting* to Otay Water District for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2007. This was the fourth consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government agency must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The District also received a *Distinguished Budget Presentation Award* from the GFOA for the District's Operating and Capital Budget for Fiscal Year beginning July 1, 2007, as well as four awards from the CSMFO for *Excellence in Budgeting*, *Excellence in Capital Budgeting*, *Meritorious in Public Communications*, and *Meritorious in Innovation*. These prestigious awards recognize conformance with the highest standards for preparation of state and local government financial reports.

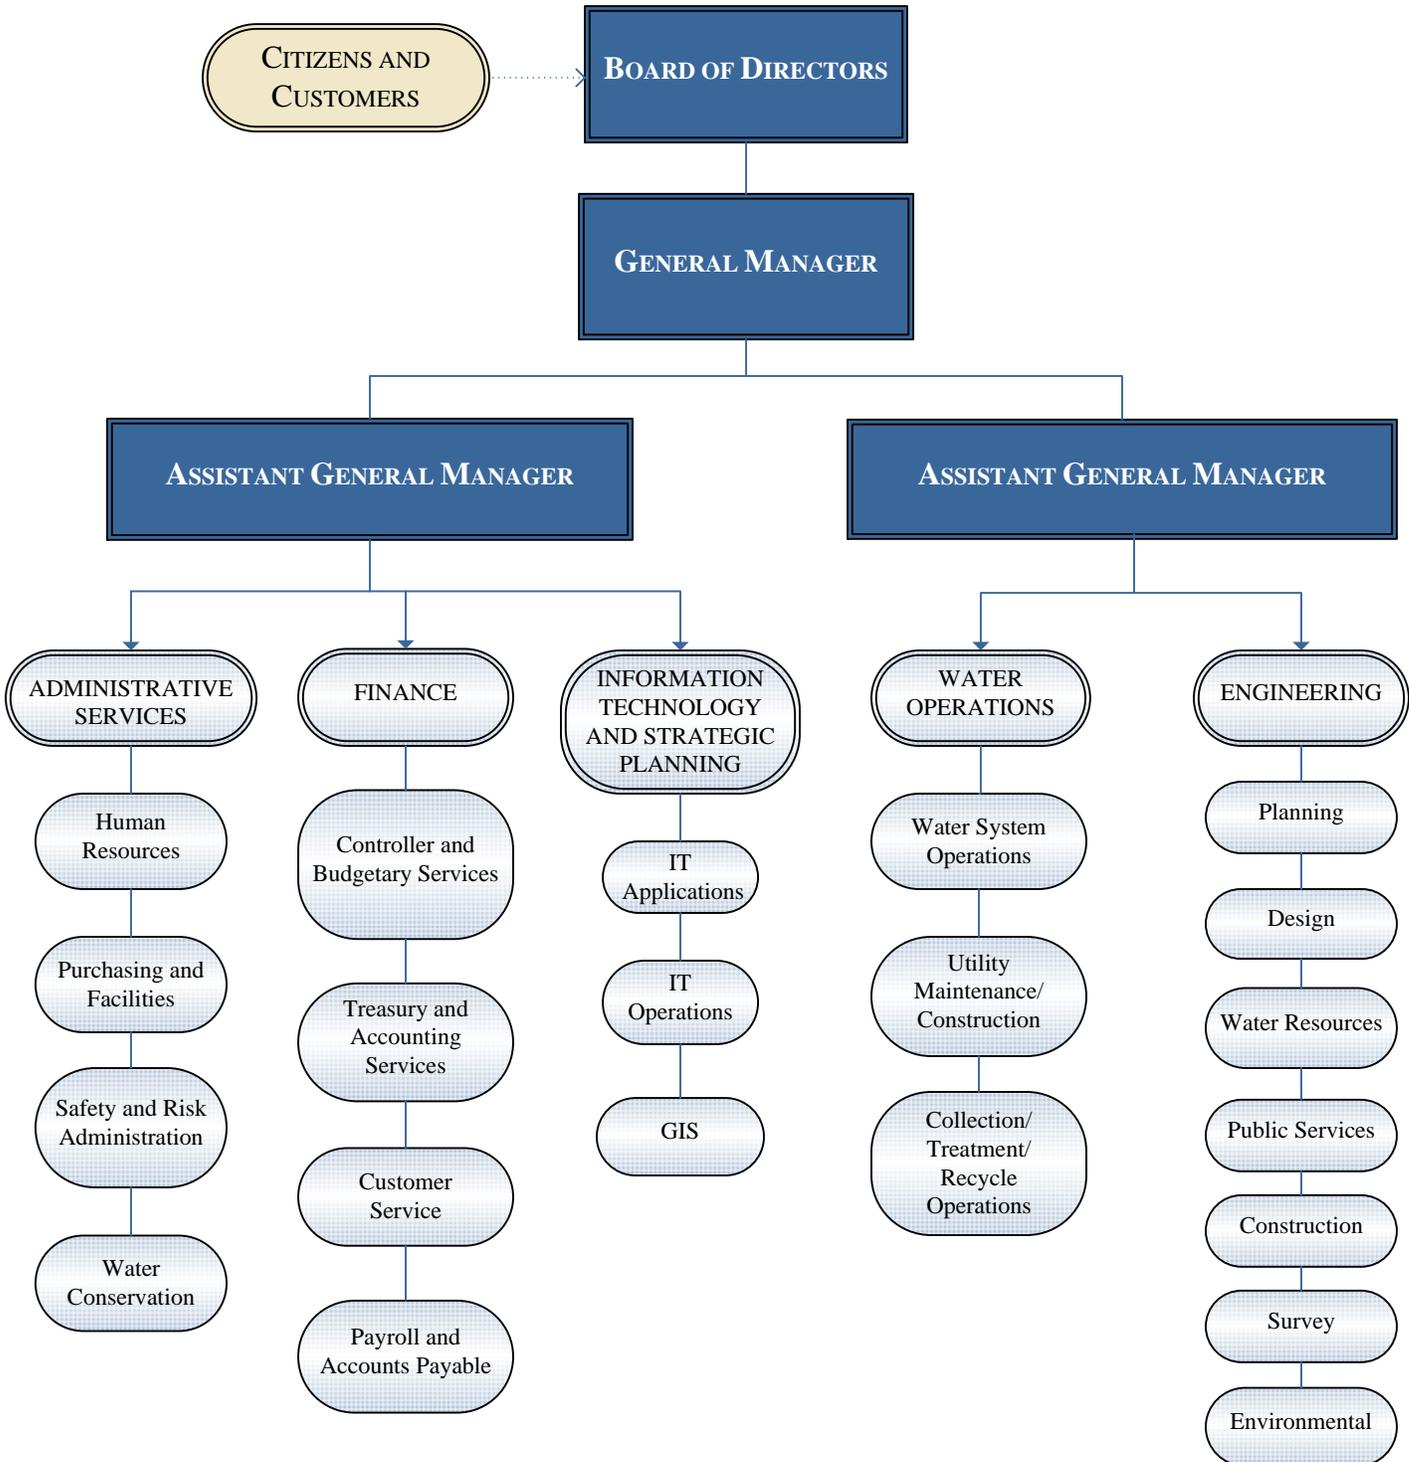

I would like to thank all of the staff involved for their efforts in preparing this Comprehensive Annual Financial Report, and for their hard work to ensure a successful outcome. I would also like to thank the firm of Teaman, Ramirez and Smith, Inc., for their professional work and opinion. To the Board of Directors, staff and I acknowledge and appreciate their continued support and direction in achieving excellence in financial management.

Mark Watton, General Manager

## INDEPENDENT AUDITORS' REPORT

Board of Directors  
Otay Water District  
Spring Valley, California

We have audited the accompanying financial statements of the business-type activities of the Otay Water District, as of and for the years ended June 30, 2008 and 2007, which collectively comprise the District's basic financial statements, as listed in the Table of Contents. These basic financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Otay Water District, as of June 30, 2008 and 2007, and the cash flows where applicable, thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 24, 2008 on our consideration of the District's internal control over financial reporting and our test of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The information identified in the accompanying table of contents as *Management's Discussion and Analysis* and *Required Supplementary Information* is not a required part of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and do not express an opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements that collectively comprise the Otay Water District's basic financial statements. The introductory section and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

*Teaman Ramirez & Smith*

October 24, 2008

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Otay Water District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the District's financial performance during the fiscal year ending June 30, 2008. Please read it in conjunction with the District's financial statements that follow Management's Discussion and Analysis. All amounts, unless otherwise indicated, are expressed in millions of dollars.

### **Financial Highlights**

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$456.8 million (*net assets*). Of this amount, \$82.0 million (*unrestricted net assets*) may be used to meet the District's ongoing obligations to citizens and creditors.
- The District's total net assets increased by \$9.8 million. This is primarily attributable to capital contributions of \$14.9 million during the fiscal year.

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements, which are comprised of the following: 1) Statement of Net Assets, 2) Statement of Revenues, Expenses and Changes in Net Assets, 3) Statement of Cash Flows, and 4) Notes to the financial Statements. This report also contains other supplementary information in addition to the basic financial statements.

The *Statement of Net Assets* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or weakening.

The *Statement of Revenues, Expenses and Changes in Net Assets* presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The *Statement of Cash Flows* presents information on cash receipts and payments for the fiscal year.

The *Notes to the Financial Statements* provide additional information that is essential to a full understanding of the data supplied in each of the specific financial statements listed above.

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's progress in funding its obligation to provide pension benefits to its employees.

### **Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of an entity's financial position. In the case of the District, assets exceeded liabilities by \$456.8 million at the close of the most recent fiscal year.

By far the largest portion of the District's net assets, \$372.5 million (82%), reflects its investment in capital assets, less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### Statement of Net Assets (In Millions of Dollars)

	<u>2008</u>	<u>2007</u>	<u>2006</u>
<b>Assets</b>			
Current and Other Assets	\$ 106.4	\$ 122.1	\$ 86.4
Capital Assets	446.7	424.3	397.0
<b>Total Assets</b>	<u>553.1</u>	<u>546.4</u>	<u>483.4</u>
<b>Liabilities</b>			
Long-term Debt Outstanding	71.7	74.2	33.9
Other Liabilities	24.6	25.2	27.4
<b>Total Liabilities</b>	<u>96.3</u>	<u>99.4</u>	<u>61.3</u>
<b>Net Assets</b>			
Invested in Capital Assets			
Net of Related Debt	372.5	374.6	361.6
Restricted	2.3	2.1	2.4
Unrestricted	82.0	70.3	58.1
<b>Total Net Assets</b>	<u>\$ 456.8</u>	<u>\$ 447.0</u>	<u>\$ 422.1</u>

At the end of FY-2008 the District is able to report positive balances in all categories of net assets. This situation also held true for the prior two fiscal years. In FY-2008 total Net Assets increased approximately \$9.8 million, to \$456.8 million, as compared to FY-2007 when Net Assets increased by over \$24.9 million. While the District's operations and population continue to grow, albeit at slower rates than in prior years, the pattern of reduced growth of the District's Net Assets is indicative of the reduction in new development projects within the District. This reduction is a result of the ongoing national housing slump and financial crisis.

The increase in Current and Other Assets of \$35.7 million in FY-2007 corresponds with the increase in Long-term Debt of \$40.3 million, due to the issuance of \$42 million in new Certificates of Participation (COPS-2007). (See Note 5 in the Notes to Financial Statements). These funds are being used as a part of the District's substantial Capital Improvement Plan (CIP), as evidenced by an increase in Capital Assets of \$27.3 million (net of accumulated depreciation) in FY-2007. In FY-2008 use of the COPS-2007 funds to finance the CIP program continued, contributing to the increase in Capital Assets of \$22.4 million. The use of the COPS-2007 funds is also reflected in the decrease of Current and Other Assets of \$15.7 million. (See Note 3 in the Notes to Financial Statements).

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### Statements of Revenues, Expenses, and Changes in Net Assets (In Millions of Dollars)

	<u>2008</u>	<u>2007</u>	<u>2006</u>
Water Sales	\$ 50.8	\$ 48.6	\$ 43.8
Wastewater Revenue	2.4	2.6	2.3
Connection and Other Fees	2.5	2.1	1.8
Non-operating Revenues	<u>13.6</u>	<u>11.1</u>	<u>8.5</u>
Total Revenues	<u>69.3</u>	<u>64.4</u>	<u>56.4</u>
Depreciation Expense	13.0	10.8	10.1
Other Operating Expense	58.5	53.9	49.5
Non-operating Expense	<u>2.9</u>	<u>1.3</u>	<u>1.2</u>
Total Expenses	<u>74.4</u>	<u>66.0</u>	<u>60.8</u>
Loss Before Capital Contributions	(5.1)	(1.6)	(4.4)
Capital Contributions	<u>14.9</u>	<u>26.5</u>	<u>15.4</u>
Change in Net Assets	9.8	24.9	11.0
Beginning Net Assets	<u>447.0</u>	<u>422.1</u>	<u>411.1</u>
Ending Net Assets	<u>\$ 456.8</u>	<u>\$ 447.0</u>	<u>\$ 422.1</u>

Water Sales increased by \$4.8 in FY-2007 and \$2.2 million in FY-2008, mainly due to reduced rainfall during both years as well as rate increases in both years. Growth also had a partial impact, with new water meter sales of 548 and 220 meters respectively. Non-operating Revenues increased by \$2.6 million in FY-2007 due primarily to rising rates of return on investment income. Despite a reversal of market rates of return in FY-2008, Non-operating Revenues increased an additional \$2.5 million due to the increased level of investments from the COPS-2007, increased property tax revenues, and healthcare reimbursements from CalPERS for other post employment benefits (OPEB). (See Note 9 in the Notes to Financial Statements).

Depreciation Expense increased by a modest \$0.7 million in FY-2007 and then \$2.2 million in FY-2008, due to a comprehensive review and write-off of long-term fixed assets that were obsolete and/or no longer serviceable. Other Operating Expense increased by approximately \$4.4 million in FY-2007 and \$4.6 million in FY-2008 as a result of the cost of the additional water sold each year, as well as increases in outside services and higher pension costs. Non-operating Expense was consistent from FY-2006 to FY-2007, but increased \$1.6 million in FY-2008 due to a full year of interest expense from the COPS-2007.

Capital Contributions increased \$11.1 million in FY-2007 due to the completion of several developer construction projects. However, because of the nationwide housing mortgage crisis throughout FY-2008, developers either slowed-down or totally stopped work on as many projects as possible until economic conditions improve and the demand for growth returns, resulting in a decrease in Capital Contributions of \$11.6 million from the prior year.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

## Capital Assets and Debt Administration

*Capital Assets.* The District's capital assets as of June 30, 2008, totaled \$446.7 million (net of accumulated depreciation). Included in this amount is land. The total increase in the District's capital assets was 6.9% for FY-2007 and 4.6% in FY-2008.

### Capital Assets (In Millions of Dollars)

	2008	2007	2006
Land	\$ 13.0	\$ 13.0	\$ 12.5
Construction in Progress	42.3	40.3	58.9
Water System	365.6	356.6	333.0
Recycled Water System	93.0	73.5	49.1
Sewer System	36.7	37.7	37.7
Buildings	17.6	17.6	17.5
Transportation Equipment	3.1	3.1	2.9
Engineering Equipment	5.7	5.6	5.7
Power Operated Equipment	1.6	1.6	1.6
Other Equipment	19.7	18.5	10.9
	<u>598.3</u>	<u>567.5</u>	<u>529.8</u>
Less Accumulated Depreciation	<u>(151.6)</u>	<u>(143.2)</u>	<u>(132.8)</u>
Net Capital Assets	<u>\$ 446.7</u>	<u>\$ 424.3</u>	<u>\$ 397.0</u>

As indicated by figures in the table above, the majority of capital assets added during both fiscal years were related to the potable and recycled water systems. In addition, the majority of the cost of construction in progress is also related to these water systems.

Additional information on the District's capital assets can be found in Note 3 of the Notes to Financial Statements.

*Long-term Debt.* At June 30, 2008, the District had \$71.7 million in outstanding debt which consisted of the following:

General Obligation Bonds	\$ 7.7
Certificates of Participation	63.3
Notes Payable	<u>0.7</u>
Total Long-term Debt	<u>\$ 71.7</u>

Additional information on the District's long-term debt can be found in Note 5 of the Notes to Financial Statements.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### **Fiscal Year 2008-2009 Budget**

#### **Economic Factors**

Growth in the San Diego area has slowed over the last 2 years, and demand for housing is reflected in a similarly reduced pace. The District currently provides water service to about 69% of its total projected population, serving approximately 191,500 people. Long-term, this percentage should continue to increase as the District's service area continues to develop and grow. Ultimately, the District is projected to serve approximately 277,000 people, creating an average daily demand of 56 million gallons per day (MGD).

The District is projected to deliver approximately 38,800 acre-feet of water to 47,340 customers during Fiscal Year 2008-2009. Management feels that these projections are very realistic after accounting for low growth, supply changes, and a focus on conservation. Current economic conditions throughout America have created an unprecedented uncertainty for business and economic projections in the current fiscal year. The nationwide housing mortgage crisis has resulted in hundreds of foreclosures throughout the District. Additionally, the crisis in the banking and financial industry has begun to have a ripple effect of employee layoffs across a wide swath of the business community. One of the subsequent results of these two broad events is the relocation of many homeowners and renters into new housing arrangements throughout San Diego County. However, as housing patterns change throughout the District, people's need for water remains an underlying constant.

#### **Financial**

The District has implemented a six-year rate study projection that forecasts minimum essential rate increases in order to fund required growth and improvements in infrastructure, as well as to pass along cost increases from the City of San Diego, the County of San Diego, and the San Diego County Water Authority. The expanding demand for water service over the past few years continues to support the incremental costs associated with meeting this increase in demand. As a result, the District has been able to implement strategic changes that will provide long-term benefits to the District, while only increasing rates at modest levels.

Conversely, lower than average levels of rainfall over the last three years have caused historic dry conditions and depleted water reserves throughout the entire state. Following Governor Schwarzenegger's declaration of a statewide drought in California in June 2008, the District declared a Level 1 drought watch. By doing so, we have begun calling on all customers to achieve up to a 10 percent reduction in their water use through voluntary measures. By summer of next year, we estimate we could be in Level 2 drought alert where voluntary conservation gives way to mandatory measures and all customers are required to cut water use by up to 20 percent. Mitigating the impact of this revenue decrease would be corresponding reductions in expenses, to include the cost of water and the associated electricity required for pumping.

Management is unaware of any other conditions that could have a significant past, present, or future impact on the District's current financial position, net assets or operating results.

#### **Contacting the District's Financial Management**

This financial report is designed to provide a general overview of the Otay Water District's finances for the Board of Directors, taxpayers, creditors, and other interested parties. Questions concerning any of the information provided in the report or requests for additional information should be addressed to the District's Finance Department, 2554 Sweetwater Springs Blvd., Spring Valley, CA 91978-2004.

2	Schedule of Funding Progress for DPHP.....	49

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 1) REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A) Reporting Entity

Otay Water District (the "District") is a public entity established in 1956 pursuant to the Municipal Water District Law of 1911 (Section 711 et. Seq. of the California Water Code) for the purpose of providing water and sewer services to the properties in the District. The District is governed by a Board of Directors consisting of five directors elected by geographical divisions based on District population for a four-year alternating term.

#### B) Measurement Focus, Basis of Accounting and Financial Statement Presentation

The basic financial statements of the Otay Water District have been prepared in conformity with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for governmental accounting financial reporting purposes.

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise. The intent of the District is that the costs (including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. Revenues and expenses are recognized on the accrual basis. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred.

Fund equity is displayed as three components: (1) Invested in capital assets, net of related debt, which reflects the cost of capital assets less accumulated depreciation and less the outstanding principal of related debt not associated with unspent bond proceeds; (2) Restricted, which reflects the carrying value of assets less related liabilities that are restricted by outside covenants or by law; and (3) Unrestricted, which represents the remaining fund equity balance.

The District distinguishes operating revenues and expenses from those revenues and expenses that are non-operating. Operating revenues are those revenues that are generated by water sales and wastewater services while operating expenses pertain directly to the furnishing of those services. Non-operating revenues and expenses are those revenues and expenses generated that are not directly associated with the normal business of supplying water and wastewater treatment services.

The District recognizes revenues from water sales, wastewater revenues, and meter fees as they are earned. Taxes and assessments are recognized as revenues based upon amounts reported to the District by the County of San Diego, net of allowance for delinquencies of \$59,688 and \$49,317 at June 30, 2008 and 2007, respectively.

Additionally, capacity fee contributions received in an amount corresponding to expansion specific operating expenses are offset against these expenses and included in Cost of Water Sales in the Statement of Revenues and Expenses and Changes in Net Assets.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The accounting policies of the District conform to generally accepted accounting principles (GAAP) as applicable to governmental enterprise funds. In accordance with GASB Statement 20, the District has elected to follow all GASB Pronouncements and apply all Financial Accounting Standards Board Statements and Interpretations issued on or before November 30, 1989, with the exception of those that conflict with or contradict GASB Pronouncements.

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 1) REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### C) Statement of Cash Flows

For purposes of the Statement of Cash Flows, the District considers all highly liquid investments (including restricted assets) with a maturity period, at purchase, of three months or less to be cash equivalents.

#### D) Investments

As a governmental entity other than an external investment pool in accordance with GASB 31, the District's investments are stated at fair value, which is determined using selected basis. Short-term investments are reported at cost, which approximates fair value. Investments in government obligations are valued on over-the-counter bid quotations available at year-end. Cash deposits are reported at carrying amount, which reasonably estimates fair value. Investments in governmental investment pools are reported on the fair value per share, of the pool's underlying portfolio.

#### E) Inventory and Prepaids

Inventory consists primarily of materials used in the construction and maintenance of the water and sewer system and is valued at weighted average cost. Both inventory and prepaids use the consumption method whereby they are reported as an asset and expensed as they are consumed.

#### F) Capital Assets

Capital assets are recorded at cost, where historical records are available, and at an estimated historical cost where no historical records exist. Infrastructure assets in excess of \$20,000 and other Capital assets in excess of \$10,000 are capitalized if they have an expected useful life of two years or more. The cost of purchased and self-constructed additions to utility plant and major replacements of property are capitalized. Costs include materials, direct labor, transportation, and such indirect items as engineering, supervision, employee fringe benefits, and interest incurred during the construction period. Repairs, maintenance, and minor replacements of property are charged to expense. Donated assets are capitalized at their approximate fair market value on the date contributed.

The District capitalizes interest on construction projects up to the point in time that the project is substantially completed. Capitalized interest is included in the cost of water system assets and is depreciated on the straight-line basis over the estimated useful lives of such assets.

Depreciation is calculated using the straight-line method over the following estimated useful lives:

Water System	15-70 Years
Engineering Equipment	2-50 Years
Buildings	30-50 Years
Power Operated Equipment	5-10 Years
Transportation Equipment	2-4 Years
Other Equipment	2-10 Years
Reclaimed Water System	50-75 Years
Sewer System	25-50 Years

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 1) REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### G) Compensated Absences

In accordance with GASB Statement No. 16, a liability is recorded for unused vacation and sick leave balances since the employees' entitlement to these balances are attributable to services already rendered and it is probable that virtually all of these balances will be liquidated by either paid time-off or payment upon termination or retirement.

#### H) Restricted Assets and Liabilities

Certain current liabilities have been classified as current liabilities payable from restricted assets as they will be funded from restricted assets.

#### I) Allowance for Doubtful Accounts

The District charges doubtful accounts arising from water sales receivable to bad debt expense when it is probable that the accounts will be uncollectible. Uncollectible accounts are determined by the allowance method based upon prior experience and management's assessment of the collectibility of existing specific accounts.

#### J) Use of Estimates

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and necessarily include amounts based on estimates and assumptions by management.

#### K) Property Taxes

Tax levies are limited to 1% of full market value (at time of purchase) which results in a tax rate of \$1.00 per \$100 assessed valuation, under the provisions of Proposition 13. Tax rates for voter-approved indebtedness are excluded from this limitation.

The County of San Diego (the "County") bills and collects property taxes on behalf of the District. The County's tax calendar year is July 1 to June 30. Property taxes attach as a lien on property on March 1. Taxes are levied on July 1 and are payable in two equal installments on November 1 and February 1, and become delinquent after December 10 and April 10, respectively.

#### L) Reclassifications

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

### 2) CASH AND INVESTMENTS

The primary goals of the District's Investment Policy are to assure compliance with all Federal, State, and Local laws governing the investment of funds under the control of the organization, protect the principal of investments entrusted, and generate income under the parameters of such policies.

The District's Investment Policy and State statutes authorize the District to invest in obligations of the U.S. Treasury, agencies and instrumentalities, prime commercial paper, and negotiable certificates of deposit. Funds may also be invested in the State Treasurer's Local Agency Investment Fund (LAIF) and the San Diego County Treasurer's Pooled Money Fund.

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 2) CASH AND INVESTMENTS - Continued

Cash and Investments are classified in the accompanying financial statements as follows:

Statement of Net Assets:	
Cash and Cash Equivalents	\$ 23,351,911
Investments	60,682,507
Restricted:	
Cash and Cash Equivalents	<u>3,753,983</u>
Total Cash and Investments	<u>\$ 87,788,401</u>

Cash and investments consist of the following:

Cash on Hand	\$ 2,800
Deposits with Financial Institutions	2,655,933
Investments	<u>85,129,668</u>
Total Cash and Investments	<u>\$ 87,788,401</u>

### Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized for the District by the California Government Code (or the District's Investment Policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's Investment Policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's Investment Policy.

Authorized Investment Type	Maximum Maturity	Maximum Percentage Of Portfolio <sup>(1)</sup>	Maximum Investment In One Issuer
U.S. Treasury Obligations	5 years	None	None
Federal Agency Securities	5 years	None	None
Certificates of Deposit	5 years	15%	None
Corporate Medium-Term Notes	5 years	15%	None
Commercial Paper	270 days	15%	10%
Money Market Mutual Funds	N/A	15%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None

<sup>(1)</sup> Excluding amounts held by bond trustee that are not subject to California Government Code restrictions.

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 2) CASH AND INVESTMENTS - Continued

#### Investments Authorized by Debt Agreements

Investment of debt proceeds held by the bond trustee are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the District's Investment Policy.

#### Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rates risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities, so that a portion of the portfolio is maturing or coming close to maturity evenly over time, as necessary, to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments (including investments held by the bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity.

<u>Investment Type</u>	<u>Remaining Maturity (in Months)</u>			
	<u>12 Months Or Less</u>	<u>13 to 24 Months</u>	<u>25 to 60 Months</u>	<u>More Than 60 Months</u>
Federal Agency Securities	\$ 58,630,803	\$ 22,018,478	\$ 36,612,325	\$
Local Agency Investment Fund (LAIF)	12,228,060	12,228,060

#### Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code or the District's Investment Policy, or debt agreements, and the actual rating as of year end for each investment type.

<u>Investment Type</u>		<u>Minimum Legal Rating</u>	<u>Rating as of Year End</u>		
			<u>AAA</u>	<u>AA</u>	<u>Not Rated</u>
Federal Agency Securities	\$ 58,630,803	N/A	\$ 58,630,803	\$	\$
Local Agency Investment Fund (LAIF)	12,228,060	N/A			12,228,060
Corporate Medium-Term Notes	2,051,704		2,051,704		
San Diego County Pool	<u>12,219,101</u>	N/A			<u>12,219,101</u>
Total	<u>\$ 85,129,668</u>		<u>\$ 60,682,507</u>	<u>\$ 0</u>	<u>\$ 24,447,161</u>

# NOTES TO FINANCIAL STATEMENTS

## YEARS ENDED JUNE 30, 2008 AND 2007

### 2) CASH AND INVESTMENTS - Continued

#### Concentration of Credit Risk

The investment policy of the District contains no limitation on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code, Sections 53600 through 53692. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total District investments are as follows:

<u>Issuer</u>	<u>Investment Type</u>	<u>Reported Amount</u>
Federal Home Loan Bank	Federal Agency Securities	\$ 38,641,000
Federal Home Loan Mortgage Corp	Federal Agency Securities	\$ 13,987,228

#### Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the Entity's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2008, \$1,442,408 of the District's deposits with financial institutions in excess of federal depository insurance limits were held in collateralized accounts. As of June 30, 2008, District investments in the following investment types were held by the same broker-dealer (counter party) that was used by the District to buy the securities:

<u>Investment Type</u>	<u>Reported Amount</u>
Federal Agency Securities	\$ 58,630,803

#### Local Agency Investment Fund (LAIF)

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost-basis.

The LAIF is a special fund of the California State Treasury through which local governments may pool investments. The District may invest up to \$40,000,000 in the fund. Investments in LAIF are highly liquid, as deposits can be converted to cash within 24 hours without loss of interest. Investments with LAIF are secured by the full faith and credit of the State of California. The yield of LAIF during the quarter ended June 30, 2008 was 3.11%. The carrying value and estimated market value of the LAIF Pool at June 30, 2008 was \$70,027,950,242 and \$70,024,464,150, respectively. The District's share of the Pool at June 30, 2008 was approximately 0.018 percent. Included in LAIF's investment portfolio are structured notes and asset-backed securities totaling \$6,113,006,000 and \$4,188,272,000, respectively. LAIF's and the District's exposure to risk (credit, market or legal) is not currently available. The LAIF has oversight by the Local Investment Advisory Board. The LAIF Board consists of five members as designated by statute.

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 2) CASH AND INVESTMENTS - Continued

#### San Diego County Pooled Fund

As permitted by its Investment Policy, the District has placed funds with the San Diego County Pooled Fund. The pool may invest some of their portfolios in derivatives. Detailed information on derivative investments held by this pool is not readily available.

#### Collateral for Deposits

All cash and Certificates of Deposit are entirely insured or collateralized.

Under the provisions of the California Government Code, California banks and savings and loan associations are required to secure the District's deposits by pledging government securities as collateral. The market value of the pledged securities must equal at least 110% of the District's deposits. California law also allows financial institutions to secure city deposits by pledging first trust deed mortgage notes having a value of 150% of the District's total deposits.

The District may waive the 110% collateral requirement for deposits which are insured up to \$100,000 by the FDIC.

### 3) CAPITAL ASSETS

The following is a summary of changes in Capital Assets for the year ended June 30, 2008:

	Beginning Balance	Additions	Deletions	Ending Balance
Capital Assets, Not Depreciated				
Land	\$ 12,971,479	\$ 53,885	\$	\$ 13,025,364

Total Accumulated Depreciation	<u>143,223,577</u>	<u>13,040,572</u>	<u>(4,680,981)</u>	<u>151,583,168</u>
Total Capital Assets Being Depreciated, Net	<u>370,989,434</u>	<u>20,381,707</u>	<u>(20,328)</u>	<u>391,350,813</u>
Total Capital Assets, Net	<u>\$ 424,260,968</u>	<u>\$ 47,609,213</u>	<u>\$ (25,155,784)</u>	<u>\$ 446,714,397</u>

Depreciation expense for the year ended June 30, 2008 and 2007 was \$13,040,572 and \$10,729,096, respectively.

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 4) OTHER NON-CURRENT ASSETS

Contracts receivable totaled \$41,375 and \$55,759, net of no allowance as of June 30, 2008 and 2007, respectively.

Deferred bond issue costs totaled \$1,198,791 and \$1,254,821, net of accumulated amortization of \$389,352 and \$357,952 as of June 30, 2008 and 2007, respectively. The 2004 COPS had refunding transactions net of accumulated amortization of \$168,805 for June 30, 2008 and \$179,935 for June 30, 2007. The costs are amortized on the straight-line method based on the estimated term of the related bond debt. Amortization expense of \$31,400 for the years ended June 30, 2008 and 2007 is included with miscellaneous expense.

### 5) LONG-TERM DEBT

Long-term liabilities for the year ended June 30, 2008 are as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
<b>General Obligation Bonds:</b>					
Improvement District No. 27	\$ 9,210,000	\$	\$ 400,000	\$ 8,810,000	\$ 415,000

State Water Resource Control Board	<u>1,350,778</u>		<u>319,048</u>	<u>1,031,730</u>	<u>330,214</u>
Total Long-Term Liabilities	<u>\$ 75,647,597</u>	<u>\$</u>	<u>\$ 1,460,986</u>	<u>\$ 74,186,611</u>	<u>\$ 2,445,214</u>

#### General Obligation Bonds

In June 1998, the District issued \$11,835,000 of General Obligation Refunding Bonds. The proceeds of this issue, together with other lawfully available monies, were to be used to establish an irrevocable escrow to advance refund and defease in their entirety the District's previous outstanding General Obligation Bond issue. These bonds are general obligations of Improvement District No. 27 (ID 27) of the District. The Board of Directors has the power and is obligated to levy annual ad valorem taxes without limitation, as to rate or amount for payment of the bonds and the interest upon all property which is within ID 27 and subject to taxation. The General Obligation Bonds are payable from District-wide tax revenues. The Board may utilize other sources for servicing the bond debt and interest.

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 5) LONG-TERM DEBT - Continued

The refunding resulted in a deferred amount of \$1,021,903, which is being amortized over the remaining life of the refunded debt. Amortization for the years ended June 30, 2008 and 2007 was \$40,876 for each year and is included in miscellaneous non-operating expenses. As of June 30, 2008 and 2007, the amortized deferred amount of refunding is \$613,142, and \$654,018, respectively.

The 1998 General Obligation Bonds have interest rates from 4.5% to 5% with maturities through Fiscal Year 2023.

Future debt service requirements for the bonds are as follows:

<u>For the Year Ended June 30.</u>	<u>Principal</u>	<u>Interest</u>
2009	\$ 415,000	\$ 422,047
2010	435,000	402,705
2011	455,000	382,235
2012	475,000	360,607
2013	495,000	337,565
2014-2018	2,870,000	1,287,673
2019-2023	<u>3,665,000</u>	<u>475,875</u>
	<u>\$ 8,810,000</u>	<u>\$ 3,668,707</u>

The following General Obligation Bonds have been authorized by the Board of Directors, but were unissued as of June 30, 2008:

<u>Date Authorized</u>	<u>Improvement District (ID)</u>	<u>Construction Purpose</u>	<u>Bond Amount</u>
December 30, 1960	5	Water System	\$ 605,000
December 20, 1960	6	Sewer System	705,000
August 23, 1960	1 - 3	Sewer System	405,000
August 23, 1960	1 - 4	Water System	75,000
March 18, 1970	U - 18	Sewer System	2,700,000

May 17, 1971	U - 20	Water System	13,000,000
June 5, 1972	U - 22	Water System	6,000,000
May 1, 1978	U - 25	Water System	5,050,000
November 1, 1989	U - 27	Water System	88,500,000

### Certificates of Participation (COPS)

In June 1996, COPS with face value of \$15,400,000 were sold by the Otay Service Corporation to finance the cost of design, acquisition, and construction of certain capital improvements. An installment purchase agreement between the District, as Buyer, and the Corporation, as Seller, was executed for the scheduled payment of principal and interest associated with the COPS. The installment payments are to be paid from taxes and "net revenues," as described in the installment agreement. The certificates bear interest at a variable weekly rate not to exceed 12%. The interest rate at June 30, 2008 was 1.33%. The installment payments are to be paid annually at \$350,000 to \$900,000 from September 1, 1996 through September 1, 2026.

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 5) LONG-TERM DEBT - Continued

#### Certificates of Participation (COPS) - Continued

In July 2004, Refunding Certificates of Participation (COPS) with a face value of \$12,270,000 were sold by the Otay Service Corporation to advance refund \$11,680,000 of outstanding 1993 COPS. An installment agreement between the District, as Buyer, and the Corporation, as Seller, was executed for the scheduled payment of principle and interest associated with the COPS. The installment payments are to be paid from taxes and "net revenues," as described in the installment agreement. The certificates are due in annual installments of \$445,000 to \$895,000 from September 1, 2005 through September 1, 2023; bearing interest at 3% to 4.625%.

In March 2007, Revenue Certificates of participation (COPS) with face value of \$42,000,000 were sold by the Otay Service Corporation to improve the District's water storage system and distribution facilities. An installment purchase agreement between the District, as a Buyer, and the Corporation, as Seller, was executed for the scheduled payment of principle and interest associated with the COPS. The installment payments are to be paid from taxes and "net revenues," as described in the installment agreement. The certificates are due in annual installments of \$785,000 to \$2,445,000 from September 1, 2007 through September 1, 2036; bearing interest at 3.7% to 4.47%.

There is no aggregate reserve requirement for the COPS. Future debt service requirements for the certificates are as follows:

For the Year Ended June 30,	1996 COPS		2004 COPS		2007 COPS	
	Principal	Interest*	Principal	Interest	Principal	Interest
2009	\$ 400,000	\$ 160,930	\$ 515,000	\$ 418,309	\$ 785,000	\$ 1,730,532

	<u>\$ 12,500,000</u>	<u>\$ 1,778,210</u>	<u>\$ 10,835,000</u>	<u>\$ 4,008,293</u>	<u>\$ 42,000,000</u>	<u>\$ 31,560,570</u>

\* Variable Rate - Interest reflected at June 30, 2008 at a rate of 1.33%.

#### Note Payable

In December 1990, the District entered into a 3.5% note payable to the State Water Resources Control Board. This note is unsecured and payable in annual installments of \$366,325 including principal and interest from 1994 through 2010. The total amount outstanding at June 30, 2008 and aggregate maturities of the note for the fiscal years subsequent to June 30, 2008, are as follows:

For the Year Ended June 30,	Principal	Interest
	2009	\$ 330,214
2010	341,772	24,553
2011	<u>359,744</u>	<u>12,591</u>
	<u>\$ 1,031,730</u>	<u>\$ 73,255</u>

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 6) SEGMENT INFORMATION

The District issued Certificates of Participation to finance certain capital improvements. Both the water and sewer departments are accounted for in a single fund. The sewer department operates the District's sewage treatment plant, sewage pumping stations, and collection systems, while the water department accounts for all other services. However, investors in the Certificates of Participation rely solely on the revenues generated by the individual activities for repayment.

Summary financial information for the water and sewer departments is presented below.

## YEARS ENDED JUNE 30, 2008 AND 2007

### 7) NET ASSETS

A summary of changes in net assets for the year ended June 30, 2008 is as follows:

Description	Investment in Capital Assets (Net of Related Debt)	Restricted Net Assets	Unrestricted Net Assets	Total
Beginning of Year	\$ 374,667,591	\$ 2,071,307	\$ 70,282,627	\$ 447,021,525
Income (Loss) Before Contributions	(13,040,572)*	2,734,492	5,170,010	(5,136,070)
Capital Contributions				
Construction of Water and Sewer Systems	8,134,201			8,134,201
Capacity Fees and Capital Contributions		6,281,326		6,281,326
Annexation Fees			526,435	526,435
Decrease in Related Capital Debt/(Transfers)	(24,593,234)	26,054,220	(1,460,986)	0
Acquisition and Construction/(Transfers)	<u>27,359,800</u>	<u>(34,826,945)</u>	<u>7,467,145</u>	<u>0</u>
End of Year	<u>\$ 372,527,786</u>	<u>\$ 2,314,400</u>	<u>\$ 81,985,231</u>	<u>\$ 456,827,417</u>

\*Depreciation Expense

#### Designated Net Assets

In addition to the restricted net assets, unrestricted net assets have been designated by the Board of Directors for the following purposes as of June 30, 2008 and 2007:

	2008	2007
Replacement Reserve	\$ 31,785,910	\$ 31,779,960
Insurance Reserve	10,458,191	16,893,128
Expansion Reserve	<u>34,877,733</u>	<u>17,809,405</u>
Total	<u>\$ 77,121,834</u>	<u>\$ 66,482,493</u>

### 8) DEFINED BENEFIT PENSION PLAN

#### Plan Description

The District's defined plan, (the "Plan"), provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The Plan is part of the Public Agency portion of the California Public Employees' Retirement System (CalPERS), an agent multiple-employer plan administered by CalPERS, which acts as a common investment and administrative agent for participating public employers within the State of California. A menu of benefit provisions as well as other requirements is established by State statute within the Public Employees' Retirement Law. The Plan selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through District resolution. CalPERS issues a separate Comprehensive Annual Financial Report. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95814.

# NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

## 8) DEFINED BENEFIT PENSION PLAN - Continued

### Funding Policy

Active members in the Plan are required to contribute 8% of their annual covered salary. The District has elected to contribute 7% on behalf of its employees. The District is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The required employer contribution rate for the fiscal year ended June 30, 2008 was 19.523%. The contribution requirements of the Plan members are established by State statute and the employer contribution rate is established and may be amended by the CalPERS.

### Annual Pension Costs

For the fiscal year ended June 30, 2008, the District's annual pension cost and actual contribution was \$2,252,601. The required contribution for the fiscal year ended June 30, 2008, was determined as part of the June 30, 2005 actuarial valuation.

The following is a summary of the actuarial assumptions and methods:

Valuation Date	June 30, 2005
Actuarial Cost Method	Entry Age Actuarial Cost Method
Amortization Method	Level Percent of Payroll
Average Remaining Period	22 Years as of the Valuation Date
Asset Valuation Method	15 Year Smoothed Market
Actuarial Assumptions:	
Investment Rate of Return	7.75% (Net of Administrative Expenses)
Projected Salary Increase	3.25% to 14.45% Depending on Age, Service, and Type of Employment
Inflation	3.00%
Payroll Growth	3.25%
Individual Salary Growth	A merit scale varying by duration of employment coupled with an assumed annual inflation component of 3.00% and an annual production growth of 0.25%.

Initial unfunded liabilities are amortized over a closed period that depends on the Plan's date of entry into CalPERS. Subsequent Plan amendments are amortized as a level percentage of pay over a closed 20-year period. Gains and losses that occur in the operation of the plan are amortized over a rolling period, which results in an amortization of 6% of unamortized gains and losses each year. If the plan's accrued liability exceeds the actuarial value of the plan assets, then the amortization payment of the total unfunded liability may be lower than the payment calculated over a 30-year amortization period.

#### THREE-YEAR TREND INFORMATION FOR PERS

Fiscal Year	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
6/30/08	2,252,601	100%	0
6/30/07	1,925,758	100%	0
6/30/06	2,120,529	100%	0

### Fund Status and Funding Progress

As of June 30, 2006, the most recent actuarial valuation date, the plan was 74.4% funded. The actuarial accrued liability (AAL) for benefits was \$54,228,041, and the actuarial value of assets was \$40,321,483, resulting in an unfunded actuarial accrued liability (UAAL) of \$13,906,558. The covered payroll (annual payroll of active employees covered by the plan) was \$10,470,766, and the ratio of the UAAL to the covered payroll was 132.8%.

The schedule of funding progress, presented as *required supplementary information* following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over the time relative to the actuarial accrued liability for benefits.

# NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

## 9) OTHER POST EMPLOYMENT BENEFITS

### Plan Description

The District's defined benefit postemployment healthcare plan, (DHP), provides medical benefits to eligible retired District employees and beneficiaries. DHP is part of the Public Agency portion of the California Employers' Retiree Benefit Trust Fund (CERBT), an agent multiple-employer plan administered by California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for participating public employers within the State of California. A menu of benefit provisions as well as other requirements is established by State statute within the Public Employees' Retirement Law. DHP selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through District resolution. CalPERS issues a separate Comprehensive Annual Financial Report. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95814.

### Funding Policy

The contribution requirements of plan members and the District are established and may be amended by the Board of Directors. DHP members receiving benefits contribute based on their selected plan options of EPO, Silver or Gold and if they are located outside the State of California. Contributions by plan members range from \$38 to \$65 per month for coverage to age 65, and from \$30 to \$53 per month, respectively, thereafter.

The District is required to contribute the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The current ARC rate is 7.7% of the annual covered payroll.

### Annual OPEB Cost

For 2008, the District's annual OPEB cost (expense) of \$846,000 for DHP was equal to the ARC. In addition to the ARC, the District contributed an additional \$5,000,000 and has cash and implied subsidy (healthcare reimbursements from CalPERS) amounts of \$649,008 to the plan. The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the 2008 and the two preceding years were as follows:

THREE-YEAR TREND INFORMATION FOR CERBT					
Fiscal Year	Annual OPEB Cost (AOC)	Percentage of OPEB Cost Contributed	Net OPEB Obligation		
6/30/08	\$ 846,000	100%	\$ (5,649,008)		
6/30/07	*	*	*		
6/30/06	*	*	*		

\*The information for the two preceding years is unavailable. GASB 45 was implemented in fiscal year 2008.

### Funded Status and Funding Progress

The funded status of the plan as of June 30, 2007, was as follows:

Actuarial Accrued Liability (AAL)	\$	11,408,000
Actuarial Value of Plan Assets	\$	0
Unfunded Actuarial Accrued Liability (UAAL)	\$	11,408,000
Funded Ratio (Actuarial Value of Plan Assets/AAL)		0%
Covered Payroll (Active Plan Members)	\$	10,951,000
UAAL as a Percentage of Covered Payroll		104.2%

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 9) OTHER POST EMPLOYMENT BENEFITS - Continued

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following is a summary of the actuarial assumptions and methods:

Valuation Date	June 30, 2007
Actuarial Cost Method	Entry Age Normal Cost Method
Amortization Method	Level Percent of Payroll
Remaining Amortization Period	30 Years as of the Valuation Date
Asset Valuation Method	15 Year Smoothed Market
Actuarial Assumptions:	
Investment Rate of Return	7.75% (Net of Administrative Expenses)
Projected Salary Increase	3.25%
Inflation	3.00%
Individual Salary Growth	CalPERS 1997-2002 Experience Study

### 10) WATER CONSERVATION AUTHORITY

In 1999 the District formed the Water Conservation Authority (the “Authority”), a Joint Powers Authority, with other local entities to construct, maintain and operate a xeriscape demonstration garden in the furtherance of water conservation. The authority is a non-profit public charity organization and is exempt from income taxes. During the years ended June 30, 2008 and 2007, the District contributed \$80,541 and \$80,000, respectively, for the development, construction and operation costs of the xeriscape demonstration garden.

A summary of the Authority’s June 30, 2007 audited financial statement is as follows (latest report available):

Assets	\$ 2,556,885
Liabilities	97,538
Revenues, Gains and Other Support	685,299
Changes in Net Assets	12,540

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 11) COMMITMENTS AND CONTINGENCIES

#### **Construction Commitments**

The District had committed to capital projects under construction with an estimated cost to complete of \$1,992,831 at June 30, 2008.

#### **Litigation**

Certain claims, suits and complaints arising in the ordinary course of operation have been filed or are pending against the District. In the opinion of the staff and counsel, all such matters are adequately covered by insurance, or if not so covered, are without merit or are of such kind, or involved such amounts, as would not have significant effect on the financial position or results of operations of the District if disposed of unfavorably.

#### **Refundable Terminal Storage Fees**

The District has entered into an agreement with several developers whereby the developers prepaid the terminal storage fee in order to provide the District with the funds necessary to build additional storage capacity. The agreement further allows the developers to relinquish all or a portion of such water storage capacity. If the District grants to another property owner the relinquished storage capacity, the District shall refund to the applicable developer \$746 per equivalent dwelling unit (EDU). There were 17,867 EDUs that were subject to this agreement. At June 30, 2007, 1,750 EDUs had been relinquished and refunded, 13,424 EDUs had been connected, and 2,693 EDUs have neither been relinquished nor connected. At June 30, 2008, 1,750 EDUs had been relinquished and refunded, 14,622 EDUs had been connected, and 1,495 EDUs have neither been relinquished nor connected.

#### **Developer Agreements**

The District has entered into various Developer Agreements with developers towards the expansion of District facilities. The developers agree to make certain improvements and after the completion of the projects the District agrees to reimburse such improvements with a maximum reimbursement amount for each developer. Contractually, the District does not incur a liability for the work until the work is accepted by the District. As of June 30, 2008, none of the 6 outstanding developer agreements had been accepted, however it is anticipated that the District will be liable for an amount not to exceed \$924,831 at the point of acceptance. Accordingly, the District did not accrue a liability as of year end.

### 12) RISK MANAGEMENT

#### **General Liability**

The District is exposed to various risks of loss related to torts, theft, damage and destruction of assets, errors and omissions, and natural disasters. The District pays an annual premium for commercial insurance covering general liability, excess liability, property, automobile, public employee dishonesty, and various other claims. Coverage limits range up to \$100 million. Accordingly, the District retains no risk of loss.

#### **Workers' Compensation**

The District is a member of the Special District Risk Management Authority (SDRMA). SDRMA is a not-for-profit public agency formed under California Government Code Sections 6500 et. Seq. SDRMA is governed by a board composed of members from participating agencies. The mission of SDRMA is to provide renewable, efficiently priced risk financing and risk management services through a financially sound pool. The District is insured up to \$300,000,000 for statutory workers' compensation and \$5,000,000 for employers' liability coverage with no deductible. Separate financial statements of SDRMA may be obtained at Special District Risk Management Authority, 1112 "I" Street, Suite 300, Sacramento, CA 95814.

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2008 AND 2007

### 12) RISK MANAGEMENT - Continued

#### Health Insurance

The District maintains a self-insurance program covering all of its employees, retirees, and other dependents. Health claims are processed and administered through a health insurance administrator and paid by the District upon presentation. The District has obtained a stop-loss insurance policy to cover individuals with claims exceeding \$45,000. The District has estimated accrued claims to be \$137,029 and \$474,413 at June 30, 2008 and 2007, respectively. Accrued health costs are included in other accrued liabilities. Changes in the balances of claims liabilities during the past two years are as follows:

	<u>Year Ended</u> <u>June 30, 2008</u>	<u>Year Ended</u> <u>June 30, 2007</u>
Unpaid Claims, Beginning of Fiscal Year	\$ 474,413	\$ 422,327
Incurred Claims (Including IBNRS)	1,712,810	1,399,661
Claim Payments	<u>(2,050,194)</u>	<u>(1,347,575)</u>
Unpaid Claims, End of Fiscal Year	<u>\$ 137,029</u>	<u>\$ 474,413</u>

#### Adequacy of Protection

During the past three fiscal (claims) years none of the above programs of protection have had settlements or judgments that exceeded pooled or insured coverage. There have been no significant reductions in pooled or insured liability coverage from coverage in the prior year.

### 13) INTEREST EXPENSE

Interest expense for the years ended June 30, 2008 and 2007, is as follows:

	<u>2008</u>	<u>2007</u>
Amount Expensed	\$ 2,601,252	\$ 950,479
Amount Capitalized as a Cost of Construction Projects	<u>373,282</u>	<u>997,428</u>
Interest Paid	<u>\$ 2,974,534</u>	<u>\$ 1,947,907</u>

## STATISTICAL SCHEDULES

This part of understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

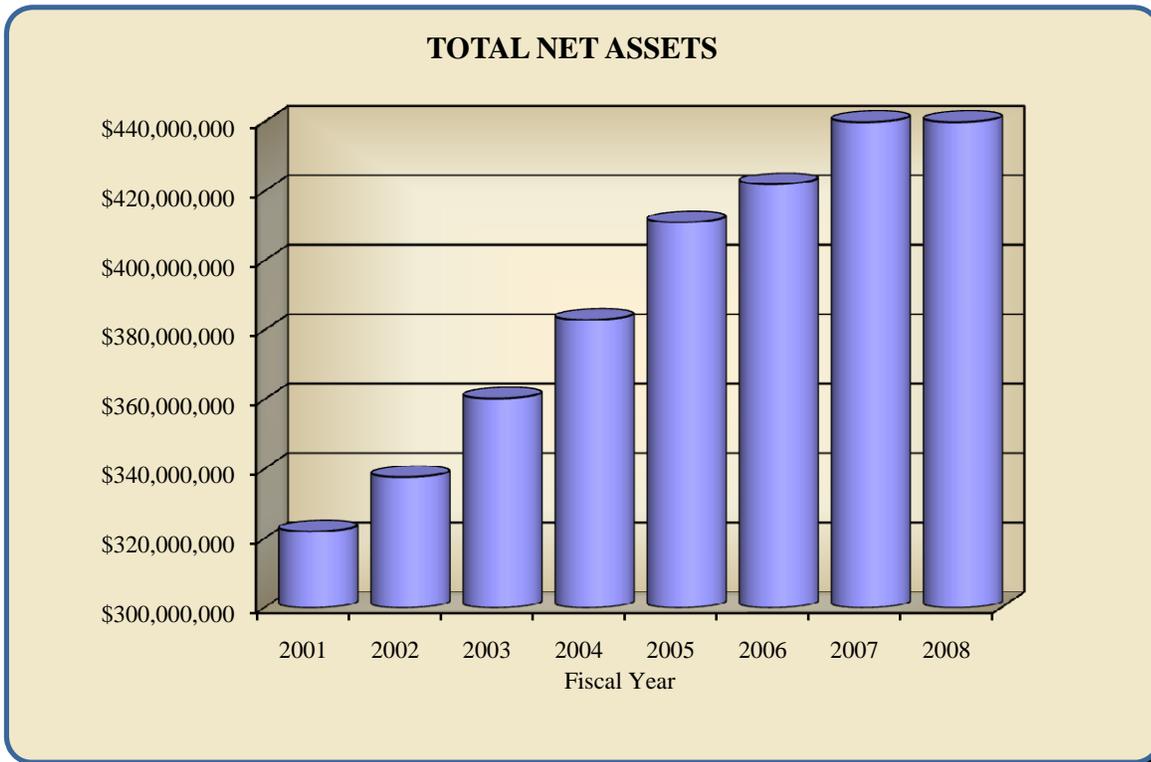

<b><u>CONTENTS</u></b>	<b><u>PAGE</u></b>
<b>FINANCIAL TRENDS</b>	52
These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	
<b>REVENUE CAPACITY</b>	58
These schedules contain information to help the reader assess the factors affecting the District's ability to generate its water, reclaimed, and sewer sales as well as property and sales taxes.	
<b>DEBT</b>	65
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	
<b>DEMOGRAPHIC AND ECONOMIC INFORMATION</b>	69
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place and to help make comparisons over time and with other governments.	
<b>OPERATING INFORMATION</b>	71
These schedules contain information about the District's operation and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.	
<b><u>SOURCES</u></b>	

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports of the relevant year. The District implemented GASB Statement 34 in 2001; schedules presenting government-wide information include information beginning in that year.

## NET ASSETS BY COMPONENT LAST TEN FISCAL YEARS

Fiscal Year	Invested in Capital Assets Net of Related Debt	Restricted	Unrestricted	Total Net Assets
2008	\$ 372,527,786	\$ 2,314,400	\$ 81,985,231	\$ 456,827,417
2007	374,667,591	2,071,307	70,282,627	447,021,525
2006	361,590,845	2,408,473	58,066,009	422,065,327
2005	325,676,089	16,188,364	69,224,020	411,088,473

## TEN LARGEST CUSTOMERS CURRENT YEAR AND NINE YEARS AGO

### FISCAL YEAR 2008

Customer Name	Business Type	Annual Revenues	% of Water Sales
1. City of Chula Vista	Publicly Owned	\$ 1,934,992	3.8%
2. State of California	Publicly Owned	961,095	1.9%
3. County of San Diego	Publicly Owned	772,190	1.5%
4. Eastlake III Community Assoc	Construction (Potable, Temporary)	602,122	1.2%
5. Eastlake Country Club	Irrigation (Reclaimed, Permanent)	399,287	0.8%
6. Steele Canyon	Irrigation (Reclaimed, Permanent)	359,162	0.7%
7. Salt Creek Partners LLC	Irrigation (Reclaimed, Permanent)	349,322	0.7%
8. Eastlake Summit	Mater-Metered (Potable, Permanent)	316,696	0.6%
9. Sweetwater School District	Publicly Owned	294,320	0.6%
10. Otay Project LP	Construction (Potable, Temporary)	271,068	0.5%
Total (10 Largest)		\$ 6,260,254	12.3%
Other Customers		\$ 44,548,571	87.7%
Total Water Sales		\$ 50,808,825	100.0%

### FISCAL YEAR 2004 (1)

Customer Name	Business Type	Annual Revenues	% of Water Sales
1. City of Chula Vista	Publicly Owned	\$ 1,127,011	2.9%
2. State of California	Publicly Owned	849,140	2.2%
3. County of San Diego	Publicly Owned	725,507	1.9%
4. Steele Canyon	Irrigation (Potable Permanent)	526,582	1.3%
5. Eastlake III	Business/Irrigation (Reclaimed)	419,942	1.1%
6. Singing Hills	Residential/Irrigation (Potable Permanent)	390,720	1.0%
7. McMillin	Construction (Potable Temporary)	377,591	1.0%
8. Eastlake Country Club	Irrigation (Reclaimed Permanent)	325,036	0.8%
9. California Bank & Trust	Irrigation (Reclaimed Permanent)	243,689	0.6%
10. Sweetwater School District	School/Irrigation (Reclaimed Publicly Owned)	224,054	0.6%
Total (10 Largest)		\$ 5,209,273	13.3%
Other Customers		\$ 33,835,439	86.7%
Total Water Sales		\$ 39,044,712	100.0%

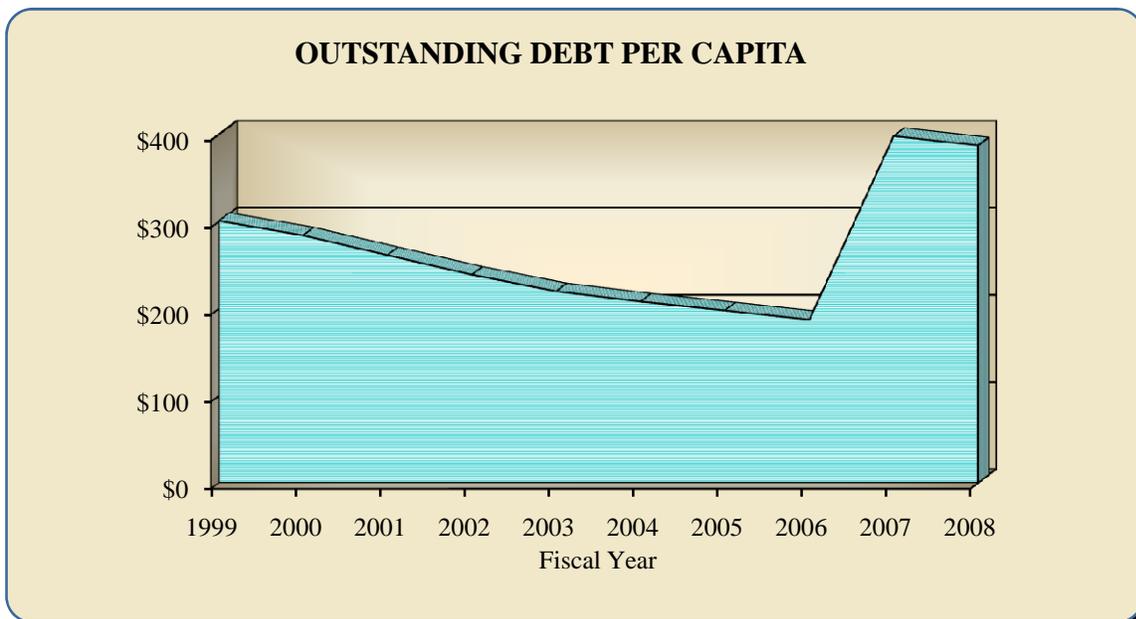

(1) Because the District did not begin tracking its ten largest customers until Fiscal Year 2004, data for nine years ago is not available. Accordingly, the current fiscal year and Fiscal Year 2004 are presented.
